

Additional Resources

Here is a list of some resources to help students better understand current water supply issues in Santa Barbara County and in the state of California. These resources provide accurate information for students to develop content in their videos.

Informational Resources:

[WaterWiseSB](#): The Santa Barbara County Regional Water Efficiency Program has localized county water efficiency and drought information for indoor and outdoor water use. Lots of pertinent countywide information and resources are available on this website!

[Water Wise Gardening in Santa Barbara County](#): Comprehensive database of native, water wise plants.

[Sweetwater Collaborative](#), [WhollyH2O](#), and [Surfrider Ocean Friendly Gardens](#): All focus on water capture and reuse.

[SaveOurWater](#): California's Statewide Water Efficiency Program.

[EPA WaterSense](#): The National Water Efficiency Program from the US Environmental Protection Agency.

[State Water Resources Control Board](#): Contains the latest information on the State's current emergency water conservation regulations.

Free Video Production & Software Resources:

[Lightworks](#): Video editing software in SD and HD up to 4K resolution. There are also tutorials.

[VSDC Free Video Editor](#): Windows-based professional video editing software.

[DaVinci Resolve 15](#): Professional editing with color correction and Fairlight audio tools for SD, HD and Ultra HD work at up to 60 frames per second. There are also video tutorials.

[Freemake](#): Video Converter, Video Downloader, YouTube Converter, Audio Converter and Free Music Player in multiple formats.

Video Examples:

(Any material copied or plagiarized from previously submitted videos will be disqualified)

[Garden Wise TV Show](#): View episodes from our sustainable landscaping TV show to learn water saving tips in the garden and outdoors in general.

[Water Wise High School Video Contest](#): See examples of videos from previous contest winners.

[Ventura Take 1 Contest](#): Want to see more water-themed videos for ideas? Check out the video entries Ventura receives for their Water Take 1 Contest.

Consult with the Local Water Experts:

Find and contact your local water provider [here](#). See if you can even schedule a water checkup with their Water Conservation Specialist!

Consult local certified and trained landscape professionals in our community. Find one near you [here](#).
